🪪 PROFILE

Laravel backend developer. I studied at the College of Computers and Artificial Intelligence, and I implemented many projects, developing them using Laravel, PHP, and SQL. I gained the ability to implement these projects on the ground. I'm doing my best to learn more. I look forward to the opportunity to prove my skills, gain more experience, and I will continue to develop and do my best.

🧠 SKILLS

- Laravel
- php
- SQL
- HTML / CSS
- GitHub
- JavaScript
